Mysuru, Karnataka, India

Professional Summary

Frontend-focused Full Stack Developer with hands-on experience building 17 production-ready web applications using React 19, JavaScript (ES6+), Spring Boot, and Progressive Web App architecture. Skilled in designing component-driven interfaces, integrating REST APIs, and implementing motion-rich UIs using GSAP. Founder of SkillVerse Technologies, an inclusive EdTech learning platform. Holder of 32 professional certifications spanning Frontend Engineering, Cloud Computing, DevOps, AI, and Cybersecurity.

Core Skills

Frontend Engineering: React 19, React Router 6, Hooks, Context API, JavaScript (ES6+), HTML5, CSS3, GSAP, Progressive Web Apps (PWA), Service Workers

Motion & Design: GSAP ScrollTrigger, SVG Animation, Responsive UI/UX, Accessibility-First Design, Keyboard Navigation

Backend Development: Java, Spring Boot, REST APIs, MySQL, MongoDB

Systems & DevOps: Linux Administration, Kubernetes Fundamentals, DevOps & SRE Concepts

Data & Analytics: Power BI, Tableau, Advanced Excel, Data Validation, Data Cleaning

Tools & Deployment: Git, GitHub, Vercel, Netlify, Postman

Concepts: Component Architecture, State Management, PWA Architecture, Asynchronous Programming, Accessibility-First UI, Responsive Design, REST API Integration

Experience

Program Monitoring & Evaluation Intern

Dec 2025 – Apr 2026

Magic Bus India Foundation (MBIF)

Bengaluru

- Reg. No: CS2334017 — Cert. No: ECPL/INT/2026/011 — Duration: 16 Weeks (640 Hours)
- Monitored attendance and program performance data across multiple youth livelihood training batches
- Cleaned and standardized large raw datasets, eliminating duplicates and restructuring fragmented reporting layouts
- Engineered weekly data tracking dashboards for management review using advanced Excel and Google Sheets
- Served as the technical link between field training operations and executive digital reporting pipelines

Founder & LMS Administrator

Nov 2025 – Present

SkillVerse Technologies

Mysuru

- Architected and deployed an inclusive online learning portal on TalentLMS with structured course paths and progress tracking
- Designed digital literacy programs and technology tutorials for beginner and non-technical learners
- Managed end-to-end backend configuration, accessibility layouts, and student learning path structures

Education

Diploma in Computer Science and Engineering

2023 – 2026

JSS Polytechnic for the Differently Abled, Mysuru

Pre-University Course (EBAC)

2022

SVG Vishwaprajna Composite PU College

86%

SSLC

2019

Vishwamanava Vidyanyikethana

88%

Technical Projects (17)

Holy Quran Mushaf App

Feb 2026

HTML5, CSS3, JavaScript, PWA, Service Workers

GitHub

- Built installable PWA with offline dual-page reading interface, verse-level audio synchronization, and service worker caching

Stream Nest – Video Discovery Platform

Feb 2026

React 19, React Router 6, Context API

GitHub

- Developed scalable React architecture with persistent playback bar, global state management, and debounced search

Admin Dashboard

Feb 2026

React, JavaScript, CSS

GitHub

- Business analytics dashboard with custom-built lightweight charts and multi-criteria data filtering

Breezl Weather Web App

Jan 2026

JavaScript, GSAP, Fetch API

GitHub

- Real-time weather application with live REST API integration and smooth GSAP motion animations

Flowly – Animated Landing Page

Jan 2026

GSAP, SVG, HTML5, CSS3

GitHub

- Motion-rich landing page using GSAP ScrollTrigger timelines and strict SVG asset animations

React Movie Explorer

Jan 2026

React, OMDb API

GitHub

- Dynamic movie search interface with conditional modal previews and live asynchronous API integration

Spring Boot CRUD Systems

2025

Java, Spring Boot, MySQL, MongoDB, REST APIs

GitHub

- Designed backend services for Hostel, Employee, Student, and Bank Management with layered architecture and exception handling

Additional Web Applications

2025 – 2026

React, JavaScript, HTML, CSS, Python

- FoodLand (GitHub), Random Quotes Generator (GitHub), React Counter App (GitHub)
- Vanilla JS ToDo (GitHub), Smart Calculator (GitHub), Islamic Quiz (GitHub)
- Student Marks Manager (GitHub), Mario 2D Game (GitHub), Zikra – Python NLP Assistant (TextBlob)

Certifications (32)

Linux Foundation: Introduction to Linux, Introduction to Kubernetes, Open Source Software Development, DevOps & SRE

IBM SkillsBuild: Data Fundamentals, JavaScript, React, Web Development

Infosys Springboard: Learning React, Webpack for React, HTML5 with JS & CSS3, Java Features, Information Security

Simplilearn: Full Stack Java Development, Artificial Intelligence, Blockchain, Cybersecurity, Cryptography, Kali Linux, Power BI, Tableau, Big Data Tools

FutureSkills Prime: Cloud Computing Applications, Prompt Engineering, Big Data Analytics

Additional Information

Languages: English, Hindi, Kannada, Urdu

Community: Assistive Technology Hackathon – AIISH Mysuru (2025) — Career Awareness Workshop – EnAble India, JSS PDA (2025)

Disability Status: Locomotor Disability – Cerebral Palsy (75%)
