Mysuru, Karnataka, India

Professional Summary

Frontend Developer with hands-on experience building 17 production-ready web applications using React 19, JavaScript (ES6+), HTML5, CSS3, and Progressive Web App architecture. Skilled in component-driven UI development, REST API integration, GSAP motion design, and accessibility-first development. Holder of 32 professional certifications. Founder of SkillVerse Technologies, an inclusive EdTech learning platform.

Core Skills

Frontend Engineering: React 19, React Router 6, Hooks, Context API, JavaScript (ES6+), HTML5, CSS3, GSAP, Progressive Web Apps (PWA), Service Workers

Motion & Design: GSAP ScrollTrigger, SVG Animation, Responsive UI/UX, Accessibility-First Design, Keyboard Navigation

API Integration: REST APIs, Fetch API, Asynchronous Programming, Error Handling, JSON

Backend Fundamentals: Java, Spring Boot, MySQL, MongoDB

Systems & DevOps: Linux Administration, Kubernetes Fundamentals, DevOps & SRE Concepts

Tools & Deployment: Git, GitHub, Vercel, Netlify, Postman

Concepts: Component Architecture, State Management, PWA Architecture, Offline Caching, Responsive Design, Cross-Browser Compatibility

Experience

Program Monitoring & Evaluation Intern

Magic Bus India Foundation (MBIF)

Dec 2025 – Apr 2026

Bengaluru

- Reg. No: CS2334017 — Cert. No: ECPL/INT/2026/011 — 16 Weeks — 640 Hours
- Maintained and validated large attendance and performance datasets across multiple training batches
- Cleaned raw datasets, eliminated duplicates, and standardized reporting layouts using Excel and Google Sheets
- Built weekly data tracking dashboards for management review

Founder & LMS Administrator

SkillVerse Technologies

Nov 2025 – Present

Mysuru

- Architected and deployed an inclusive online learning portal on TalentLMS with structured course paths
- Designed digital literacy programs and technology tutorials for beginner learners

- Managed backend configuration, student learning paths, and accessibility layouts end-to-end

Education

Diploma in Computer Science and Engineering <i>JSS Polytechnic for the Differently Abled, Mysuru</i>	2023 – 2026
Pre-University Course (EBAC) <i>SVG Vishwaprajna Composite PU College</i>	2022 86%
SSLC <i>Vishwamanava Vidyanikethana</i>	2019 88%

Technical Projects (17)

Holy Quran Mushaf App <i>HTML5, CSS3, JavaScript, PWA, Service Workers</i>	Feb 2026 <i>GitHub</i>
--	----------------------------------

- Built installable PWA with offline dual-page reading interface, verse-level audio synchronization, and service worker caching

Stream Nest – Video Discovery Platform <i>React 19, React Router 6, Context API</i>	Feb 2026 <i>GitHub</i>
---	----------------------------------

- Scalable React architecture with persistent playback bar, global state management, and debounced search

Admin Dashboard <i>React, JavaScript, CSS</i>	Feb 2026 <i>GitHub</i>
---	----------------------------------

- Business analytics dashboard with custom-built lightweight charts and multi-criteria data filtering

Breezl Weather Web App <i>JavaScript, GSAP, Fetch API</i>	Jan 2026 <i>GitHub</i>
---	----------------------------------

- Real-time weather app with live REST API integration and smooth GSAP motion animations

Flowly – Animated Landing Page <i>GSAP, SVG, HTML5, CSS3</i>	Jan 2026 <i>GitHub</i>
--	----------------------------------

- Motion-rich landing page using GSAP ScrollTrigger timelines and SVG asset animations

React Movie Explorer <i>React, OMDb API</i>	Jan 2026 <i>GitHub</i>
---	----------------------------------

- Dynamic movie search interface with conditional modal previews and live asynchronous API integration

Spring Boot CRUD Systems <i>Java, Spring Boot, MySQL, MongoDB, REST APIs</i>	2025 <i>GitHub</i>
--	------------------------------

- Backend services for Hostel, Employee, Student, and Bank Management with layered architecture and exception handling

Additional Web Applications

2025 – 2026

React, JavaScript, HTML, CSS, Python

- FoodLand (GitHub), Random Quotes Generator (GitHub), React Counter App (GitHub)
- Vanilla JS ToDo (GitHub), Smart Calculator (GitHub), Islamic Quiz (GitHub)
- Student Marks Manager (GitHub), Mario 2D Game (GitHub), Zikra – Python NLP Assistant (TextBlob)

Certifications (32)

Linux Foundation: Introduction to Linux, Introduction to Kubernetes, Open Source Software Development, DevOps & SRE

IBM SkillsBuild: Data Fundamentals, JavaScript, React, Web Development

Infosys Springboard: Learning React, Webpack for React, HTML5 with JS & CSS3, Java Features, Information Security

Simplilearn: Full Stack Java Development, Artificial Intelligence, Blockchain, Cybersecurity, Cryptography, Kali Linux, Power BI, Tableau, Big Data Tools

FutureSkills Prime: Cloud Computing Applications, Prompt Engineering, Big Data Analytics

Additional Information

Target Role: Frontend Developer

Languages: English, Hindi, Kannada, Urdu

Community: Assistive Technology Hackathon – AIISH Mysuru (2025) — Career Awareness Workshop – EnAble India, JSS PDA (2025)

Disability Status: Locomotor Disability – Cerebral Palsy (75%)
